 METALBAN[®]

METALBAN[®]

A METALBAN distingue-se pela conjugação do metal com os diversos acabamentos da madeira, colocando assim uma grande identidade a todos os produtos a serem utilizados nas residências e na hotelaria moderna.

As elegantes estruturas metálicas pintadas, conjugadas com uma variada panóplia de múltiplos acabamentos, funcionando como uma interessante solução de design, permitem articular ambientes mais sofisticados ou e mesmo informais.

Este conceito de mobiliário suspenso e de chão fabricado com recurso nestes dois materiais, resulta numa harmonia pelas proporções definidas para cada material utilizado na sua concepção e levando a um equilíbrio visual perfeito nos ambientes de salas de banho mais inovadoras e actuais.

Metalban se distingue por la combinación del metal con diferentes acabados en madera, proporcionando una identidad propia a todos sus productos pudiendo utilizarse tanto a nivel particular, como en la hostelería moderna.

Las elegantes estructuras metálicas pintadas, combinadas con una variada gama de múltiples acabados en madera, funcionan como una interesante solución de diseño, permitiendo crear ambientes desde los más sofisticados a incluso los más informales.

Este concepto de mobiliario suspendido y para suelo, ofrece una gran armonía debido a las proporciones definidas para cada material utilizado en su concepción y llevando a un equilibrio visual perfecto todos los ambientes de los cuartos de baño, haciéndolos más innovadores y actuales.

Metalban is differentiated by the conjugation of metal with the different finishes of the wood, placing a great identity to all products to be used in residential and modern hotels.

The elegant painted metal structures, combined with a varied panoply of multiple finishes, function as an interesting design solution, allow to articulate more sophisticated or even informal environments.

This concept of suspended and floor furniture, made using these two materials, results in a harmony of the proportions defined for each material used in its design, providing a perfect visual balance in the most innovative and modern bathroom environments.

Metalban se distingue par la conjugaison du metal et diverses finitions bois, donnant de cette façon une grande identité a tous les produits utilisés dans les pensions et dans l'hotellerie moderne.

Les élégantes structures métalliques peintes, conjuguées avec une grande panoplie de multiples finitions en bois, fonctionnant comme une intéressante solution de design, permettent de former des ambiances plus sophistiquées ou et même informelles.

De ce concept de mobilier suspendu et à poser fabriqué avec le recours de ces deux matériaux, résulte une harmonie par les proportions définies de chaque matériel utilisé dans sa conception et qui aboutit sur un équilibre visuel parfait dans l'ambiance de salles de bain plus innovatrices et actuelles.
